CHEMSBURY

The Chemsbury Creed: Quality is quintessence

We believe in accomplishments that are driven by aspiration and purpose. Understanding the needs and wants of the industrial community, Chemsbury strives to make meaningful contributions that catalyze industrial growth and national progress. We identify commitment to the customer and consistency in performance as key factors. This marks us head and shoulders above as a reliable partner in the efforts to combat supply chain challenges. Our expertise spans across energy, water, environment and infrastructure realms and we design, develop and deliver integrated solutions that seamlessly support exponential growth and progress in the region at large.

PIPES, FITTINGS AND FLANGES

Chemsbury is associated with manufactures and imports piping materials employed in activities related to water treatment operations. Depending on quantity requirements, materials are either arranged from our stock or directly from the mill. Complete project management and full packages are in accordance with our customer's specifications and standards.

Product portfolio

- **Pipes: Seamless and Welded options**
- **Fittings: BW Fittings, SW Fittings, Forged Fittings, Outlet Fittings, Press Fittings and Compression Fittings**
- **Flanges: Slip-on Raised Face (SORF), Weld Neck Raised Face (WNRF), Socket Weld Raised Face (SWRF), Threaded Flanges, Lap joints and Orifice**

GRADES AVAILABLE IN CS API5L GR B, ASTM A 106 GRAB, P235H, SS304/304L, SS316/316L, Duplex UNS31803, Super Duplex 32750/32760 and TITANIUM Grade 2.

Chemsbury offers these in the most versatile selections for corrosive environments. We are flexible enough in meeting individual customer requirements offering all the grades from different manufacturers and origins based on client's requirements and specifications.

- **Quality benchmarks will be in conformance with international specifications and dimensional standards.**
- **Audit mechanism through third party inspection centers can be arranged in accordance with client's requirements.**

It flows on forever...

FABRICATION

Chemsbury is associated with certified fabricators in UAE having long standing reputation as one of the nations prominent producers of custom fabricated tanks and vessels.

- **Storage tanks**
- **Pipe spooling networks**
- **Pressure vessels**
- **Other specialized storage solutions**

Our fabricators are ASME U-stamped, R-stamped and S-stamped certified with ISO 9001: 2008 accreditation. We are a recognized industry leader for high quality engineering and production with a highly advanced manufacturing facility capable of actualizing even the most demanding job requirements. We primarily serve custom equipment providers (Original Equipment Manufacturers) and other companies that require customized storage to operate their businesses.

We take pride in our hard-earned reputation for:

- **Technical capability**
- **Unparalleled quality**
- **Reliability**
- **Shortest delivery lead time**

Our expertise in producing the highest quality ASME pressure vessels, stainless steel tanks, storage tanks and process tanks available in the market is further value-added with our fully fledged centralized manufacturing facility as well as the blanket guarantee for excellent customer service and superior technical support. With a long history of building to ASME code, our design services team can provide engineering expertise as well as detailed CAD drawings to support your project needs. We stand on our commitment to total quality and efficiency to best serve our customers and ensure them value for money.

It flows on forever...

WATER TREATMENT

We are also into the design and supply of customized Reverse Osmosis (R.O) Units for industrial, municipal and commercial purposes with a capacity to provide low cost solutions for the water and waste water treatment systems.

Product portfolio

- **Reverse Osmosis Desalination Systems**
- **De-ionization Systems**
- **Grey Water Treatment**
- **Filtration Systems – Media Filtration and Ultra filtration**
- **Containerized RO Systems**
- **Chemical Dosing Systems**
- **UV Sterilizer**
- **Ozone System**

Chemsbury is closely associated with manufacturers of water treatment speciality chemicals across Europe and the Asian sub-continent. Our intelligent water management solutions are supported with a full range of service:

- **Application knowledge**
- **On-site support**
- **Product development**

As package providers, we can also source chemicals directly from the manufacturer based on the customer requirement pattern. Our range encompasses:

- **Amino Silicone Emulsions**
- **Silicone Fluid Emulsions**
- **Silicone Fluids**
- **Amino Silicone Fluids**
- **Silicone Defoamers / Silicone Antifoams**

Annual maintenance contract for existing plant and swimming pools shall also be undertaken with highly proficient and professional technicians.

It flows on forever...

VALVES

Chemsbury functions as an operational base and sole distributors of leading manufacturers from Europe, US and Taiwan. Products and quality management procedures are in accordance with ISO standards design to API 600, API 602, API 6D, BS 5351, BS 5352, BS 1868 & BS 1873.

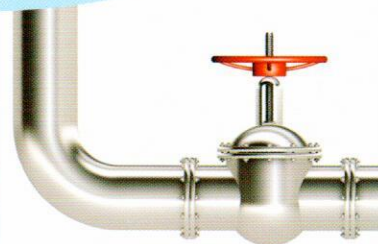

Offered product portfolio:

- **Butterfly Valves**
- **Gate Valves**
- **Globe Valves**
- **Check Valves**
- **Ball Valves**

Products are supplied in forged and cast materials like carbon steel, stainless steel, duplex and super duplex right from stock or on forward delivery basis for the mill quantity.

At Chemsbury, customer satisfaction is always in sharp focus. Every individual product is meticulously monitored for precision and perfection during each step of the production process by means of rigorous quality control procedures. Our valves are guaranteed products made in qualified and tested foundries, by using top class raw materials.

The Chemsbury Commitment: Building bonds that endure

Performance substantiates purposiveness. Chemsbury activities are clearly segmented into two major domains, namely Engineering and Chemicals. Chemsbury Engineering focuses on delivering project packages involving pipes, fittings, flanges and valves. The products are fabricated to the most exacting world-class standards by industry-leading manufacturers with decades of experience and repute for cutting-edge technology. In addition to the supply of total water treatment equipment and technology, Chemsbury offers complete solutions to the water treatment and waste water treatment systems for industrial and residential sectors.

The Chemsbury commitment transcends advanced technologies to deliver innovative solutions that maximize resource availability and drive efficiencies, and aims at making the planet a better place for living. Our sustainability initiatives do not rest with a green strategy for environmental conservation but envision every dimension as to how a business should operate in the social, cultural and economic environment for common good. We emphasize on formulating strategies and structuring a corporate entity that fosters longevity through integrity, transparency and sharing of wealth and values. Our corporate credo is to assist our customers with the best possible solutions for their needs, at the most realistic prices without compromising on quality. Our faith is in developing long term relationships based on mutual trust, honesty and integrity.
